

AF-S Teleconverter Compatibility

The following lenses may be used with the Nikon AF-S Teleconverters, some with noted functional limitations. NIKKOR lenses not listed cannot be used with the AF-S Teleconverters. The rear elements of NIKKOR lenses not listed can contact and damage the Teleconverter element and must not be attached. List includes current lenses along with lenses for which production may have ceased. Lenses no longer produced are shown only for convenience as a compatibility reference!

[†] Autofocus is available **only** with cameras that offer f/8 support. These include the D5, D500, D4/D4S, Df, D850, D810/D810A, D800/D800E, D750, D600/ D610, D7100, D7200 and D7500. For cameras that do not support f/8, teleconverters can be used without autofocus.

[♦] When using the built-in teleconverter on the AF-S NIKKOR 180-400mm f/4E TC1.4 FL ED VR lens, autofocus is not available.

For additional information about Nikon Teleconverter compatibility and/or Compatibility/Limitations, refer to the documentation packaged

with the NIKKOR lens and/or Teleconverter, information provided in Nikon product brochures or the Nikon website.
